

Chain with monkey's fist knots

STEP BY STEP 023

Inspiration: 11099

01
Begin by making 9 monkey's fist knots following the instructions. Make the knots in leather cords of different thickness. Hold one end of the leather cord with your thumb. Wrap the leather cord around 4 fingers 3 times.

02
Wrap the leather cord around the middle of the first leather cord 3 times.

07
Put glue onto the ends of the cord and put them into a silver spacer tube bead.

03
Wrap the leather cord around the core of all the leather cords 3 times.

04
Tighten the leather cord so that there is about the same length of cord in both sides.

05
This is how the knot looks like when it is completely tightened. Glue the ends and cut off the excess cord.

06
Then thread the knots onto a thick leather cord with silver flowers and glue them in place.
