

Paperihaitariko

STEP BY STEP 1 2 3

Inspiration: 12039

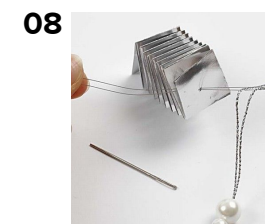

01 Divide an 84cm long weaving paper strip in two and glue these two parts together using Clear Marker as shown in the photo.

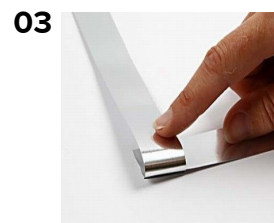

02 Make a concertina from the entire length of the paper strips.

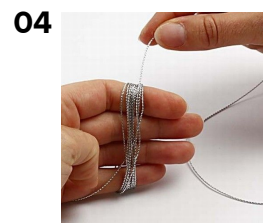

07 Pull a small and a large plastic bead onto the thread using a beading needle.

08 Make a hole at the bottom of the concertina and with a beading needle and feed the thread through the hole.

03

04

Make a small tassel from the silver thread. Twist the thread ten times around four fingers.

09

Tie a knot.

10

Close the layers with Glue Spots.

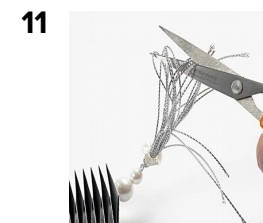

05

Gather the tassel with an approx. 20cm long piece of silver thread. Tie a double knot.

06

Pull a flat wavy mother-of-pearl plastic bead down over the top of the tassel.

11

Cut open the loops of the tassel.

12

Push the feather up into the wavy bead. You may apply a small blob of Clear Marker onto the end of the feather beforehand.

Paperihaitarikoriste

Klassinen paperihaitari on saanut elegantin säväyksen helmiäishelmillä, hopeatupsulla ja valkoisilla höyhenillä.

13

Make a hole at the top of the concertina using a needle.

14

Insert a beading needle threaded with silver thread through the hole and pull on a bead. Finish with a knot.
