

## Kuvio Drawing Gum-maskausnesteellä ja vesivärikynillä tuplakehyksissä

Vesiväripaperi on koristeltu drawing gum-kuvioilla ja maalattu Aqua-vesiväritusseilla. Kuva on laitettu tuplakehyksien sisään.

01 Start by sketching your chosen design lightly with a pencil.

02 Highlight the sketch with the drawing gum pen.

03 Paint with water over the design to achieve the effect. Don't paint to the very edge of the paper.

04 Paint with the Aqua Paint Marker on the wet paper.

05 Rub off the drawing gum when everything is dry.

06 Paint the wooden frame with white Plus Color acrylic paint and place the paper between the two panes of glass. Slide it into the frame by the groove at the top.
