1

Brush glue on the glass dish and then apply the mosaic tiles. Let it dry.

2

Apply plenty of mosaic tile grout and push well down among the tiles. Remove excess grout with a damp sponge after 5-10 minutes. Repeat this process as the mosaic tile grout may shrink during drying.

3

Attractive glass mosaic dishes made from a mix of round and square mosaics tiles and broken glass plates. Use the mosaic glass cutter for cutting the glass plates. When the dish is covered with a beautiful mosaic pattern, glued with Super hobby glue, fill with mosaic tile grout. Work the grout down between the tiles with a rubber scraper.
