

Lasimosaiikkia lasilevyllä

Lasten tilantaju kehittyy tässä luovassa projektissa, jossa he luovat kuvioita eri muotoisista ja eri värisistä mosaiikeista. Heidän on tunnistettava erilaisia kuvioita ja taustoja. Projektissa vaaditaan harkintaa, kun järjestellään ja yhdistellään pieniä lasimosaiikkipaloja.

1

Plan your pattern, sort your colours and place the glass mosaic fragments loosely on the glass plate.

2

Use Clear Multi Glue gel and apply a small blob on the back of each glass mosaic fragment. Attach the entire pattern from mosaic fragments onto the glass plate and let it dry.

3

If you wish to use the decorated glass plates for hanging, then cut a piece of nylon cord. Make a loop at one end, use mounting glue and attach two mosaic fragments on either side of the nylon cord.

4

The length of the nylon cord should be equivalent to the hanging distance. Let it dry lying down. NB: It is important that mounting glue is used for the hanging decoration as this quality is highly effective.

Image-wise

Spatial intelligence. Enhanced by activities in which children must use their abilities to perceive, recognise and express themselves within the spatial, real world.
