

Punottu tähti vedenkestävistä paperisuikaleista

Tähdet on punottu Vivi Gade-paperisuikaleista ja niitä on käytetty ovikoristeena ja kuusenkoristeina. Paperisuikaleet on päällystetty paksulla lakkakerroksella molemmilta puoliilta ja ne sopivat siitä syystä erityisen hyvin ulkotilojen koristeluun.

1

A star for the Christmas tree etc.: Weave a star following the instructions on the packaging. Thread a piece of fabric ribbon onto a darning needle and thread the needle all the way through the star. (This is a wind-proof solution if you want to hang the star outside).

2

Tie a knot in one end of the ribbon and tie the star onto the tree with the other end. A star for the door: Weave a star from wide paper star strips, and weave it with a flat back. This way the star hangs better on a door. Make a hole and tie a ribbon through the hole.

You may secure the end with Dodz adhesive dots to ensure that the end doesn't unravel.
