

Paperimassajauheesta ja alumiinilangasta tehdyt linnut

Nämä pitkäkaulaiset linnut on tehty kahden styroxpallon ympärille, jotka on yhdistetty toisiinsa alumiinilangalla. Kaikki on päällystetty paperimassalla. Lisäksi paperimassasta on tehty nokka, silmät, siivet ja jalat. Kuivumisen jälkeen linnut on maalattu A-Color glass-maalilla.

1

Soak papier-mâché pulp in water using the ratio: 3 parts pulp to 1 part water.

2

For increased adhesion add 1 tbsp glue lacquer per 2 dl mass of papier-mâché pulp and water. Knead the mixture well and leave to rest for 1 hour.

3

Frame: Assemble the polystyrene balls using bonsai wire.

4

Cover the frame by distributing the papier-mâché pulp evenly. Model eyes, a beak, feet and wings which are pressed on and smoothed out at the joints. Leave to dry for 2-8 days depending on the size of the figure.

5

Paint the figure according to your taste and leave to dry. We have used A-Color Glass paint which is slightly transparent.
